# FAQ

## What is SOC?

The Standard Occupational Classification system (SOC) is used to classify workers into occupational categories. RTI classifies workers in one of the 1,090 8-digit level codes known as the O\*NET-SOC Occupational Listings. In addition, occupations are combined to form 23 major groups (2-digit level), 97 minor groups (3-digit), and 461 occupation groups (5-digit), and 840 detailed occupations (6-digit). Each occupation group includes occupations requiring similar job duties, skills, education, or experience.

## How does the time period work?

Online job postings included in this report are those that meet the Query Definition parameters (shown above) and that were active at any point in the specified time frame preceding the date this report is generated. As such, this report may include some ads that were closed as of the date of this report; in addition, this report may include some ads that were first posted prior to the specified time frame referred to above.

## What are “active” and “closed” ads?

An “active” ad refers to an online job posting that was still posted online when Chmura’s web crawler last viewed that page, which occurs at least once a week. An ad is considered “closed” if Chmura’s web crawler no longer sees the ad listed or if the ad is specifically designated on the site as no longer being active.

## Is every online-job-ad website included in these data?

We make every attempt to catch all of the significant job-posting websites across the United States, but we cannot guarantee complete, 100% coverage. If you have any questions about a particular website, please don’t hesitate to ask.

## What certifications are included and how are they defined?

We include over 3,000 different certifications in our job ad analyses. A complete list can be found in the JobsEQ help section, along with further information about those certifications.

## About This Report

This report and all data herein were produced by JobsEQ®, a product of Chmura Economics & Analytics. The information contained herein was obtained from sources we believe to be reliable. However, we cannot guarantee its accuracy and completeness.
